AV Consulting & Design

01. AUTOMATION & CONTROL SYSTEMS
 Discover how smart technology effortlessly blends into the fabric of your home. From the bedroom to the wine cellar, smart technology provides the perfect balance of elegance and functionality to every space in your home.

02. HOME THEATRE/DISTRIBUTED AUDIO
 Picture the magic of cinema in your own home. Experience the luxury of a custom designed audio-visual system that integrates with a home theatre suite. Harnessing the finest in sound and visual technology, we will design a system that elegantly aligns with your individual needs.

03. CONFERENCE ROOMS/HUDDLE SPACES
 Create a space for people to congregate while providing the latest technology which allows for audio and visual conferencing as well as remote collaboration. This is an essential setting for any workspace. Enhance the experience and overall functionality of the space.

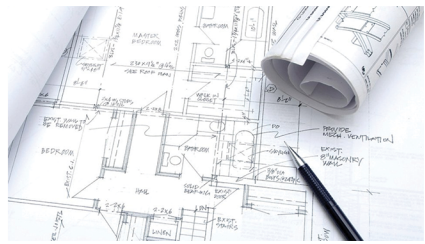

PASSION, EXPERIENCE, & CREATIVE EXCELLENCE IN ONE TEAM

Innovative Ideas Stylish Design is at the core of what we do, which means being committed to taking the vision and inspiration to create a perfect balance of technology and design to your space. We believe a strong, positive relationship and project transparency is at the core of every AV design consultation. This includes design, planning, programming, servicing, integration, and more.

INTERIOR DESIGNERS
 Bring your vision to life, designed. Discover how smart technology effortlessly blends into the fabric of your home. From the bedroom to the wine cellar, smart technology provides the perfect balance of elegance and functionality to every space in your home.

ARCHITECTS
 We believe that design is a journey, and your clients deserve top cutting-edge technology that they can control from the device of their choice. When you are designing and implementing smart technology, we will work with you to integrate this service in your preliminary design and plans. Together we elevate the experience of the user, bringing about a positive change in their day-to-day lives.

CUSTOM BUILDERS
 Every new home should include state of the art technology and automation that helps the homeowner maintain their connected lifestyle. When you work with our team, we will ensure that the automation system integrates access control, lighting, shades, climate control and more.

04. LIGHTING & SHADE CONTROL
 Transform your space with purposeful Lighting & Shading that should highlight architectural features, bring attention to furnishings and colors to stand out as well as creating the perfect atmosphere and ambiance for any room or space.

05. PROJECTION/VIDEO WALLS
 Turn your home or business into an immersive visual environment that defies the limits of visual innovation to be an elegant centerpiece to entertain, showcase artwork or content. Enhance engagement with the audience by boosting the cutting-edge features and modern design.

06. OUTSIDE LIVING
 Spark new potential for your home's exterior with flawlessly tailored technology that extends your home luxuries to the outdoors. Create a calm and serene resort-like feeling, marrying the outdoor with the indoor, to further enhance the exterior landscape with technology, design, and life.
